MATERIAL SAFETY DATA SHEET

SECTION 1 - PRODUCT IDENTIFICATION AND USE

Product Identifier	GAIA GREEN ALL PURPOSE 4-4-4
Product Use	Fertilizer (Natural)
WHMIS Classification:	D2A
TDG Classification	Not subject to Transportation of Dangerous Goods Act
Manufacturer for:	
Gaia Green Products Ltd.	
9130 Granby Road	
Grand Forks BC	
V0H-1H1	
Emergency Telephone Number	
250 442 3745 (Gaia Green)	

SECTION 2 - HAZARDOUS INGREDIENTS

Ingredient	%	CAS Number	LD ₅₀	LC ₅₀
May contain up to Crystalline silica (quartz)	5	14808-60-7	N/A	N/A

SECTION 3 - PHYSICAL DATA

Physical State	Solid		
Odour/Appearance	Brown to grey powder, no odour		
Vapour Pressure	N/A	Vapour Density	N/A
Evaporation Rate	N/A	Boiling Point	N/A
Freezing Point	N/A	pH	6-7
Specific Gravity	N/A	Coeff. Water/Oil Dist.	N/A

SECTION 4 - FIRE AND EXPLOSION DATA

Flammability	Will burn in a fire	Means of Extinction	Water, CO ₂ , Dry Chemical
Flashpoint	N/A	Upper/Lower Flam. Limit	N/A
Autoignition Temp.	N/A	Hazardous Combustion	Dioxices from fire
Unusual fire and explosion hazards: No acute hazard			
Explosion Data			
Sensitivity to Impact		None	
Sensitivity to Static Discharge		None	

SECTION 5 - REACTIVITY DATA

Chemical Stability	Stable
Incompatibility with Other Substances	None
Hazardous Decomposition Products	Carbon dioxide, carbon monoxide
Reactivity, and under what conditions	
Silica will dissolve in hydrofluoric acid to give silicon tetrafluoride, a corrosive gas.	

SECTION 6 - TOXICOLOGICAL PROPERTIES

Route of Entry				
Skin Contact	No	Skin Absorption	No	Eye Contact
Inhalation	Yes	Ingestion	No	No

Effects of Acute Exposure to Product

No potential acute toxic hazards known.

Effects of Chronic Exposure to Product

Excessive inhalation of crystalline silica dust may result in respiratory disease, including silicosis, pneumoconiosis and pulmonary fibrosis. The International Agency for Research on Cancer (IARC) has evaluated in Volume 42, Monographs on the Evaluation of the Carcinogenicity Risk of Chemicals to Humans; Silica and Some Silicates (1987), that there is "sufficient evidence for the carcinogenicity of crystalline silica to experimental animals" and "limited evidence with respect to humans."

Exposure Limits

OSHA PEL: Exposure to airborne crystalline silica shall not exceed an 8-hour time-weighted average limit as stated in 29 CFR 19100.1000 Table Z3 for Mineral Dusts, specifically "Silica: Crystalline: Quartz (respirable)".

	<u>250</u>		<u>10</u>
Crystalline Quartz (Respirable)	% SiO ₂ + 5 Mppcf		% SiO ₂ + 2 mg/m ³

Quartz (Total Dust)	<u>30</u>
	% SiO ₂ + 2 mg/m ³

ACGIH TLV: Crystalline Quartz
TLV - TWA = 0.1 mg/m³ (respirable dust).

NIOSH has recommended that the permissible exposure limit be changed to 50 micrograms respirable free silica per cubic meter of air averaged over a work shift of up to 10 hours per day, 40 hours per week.

Irritancy of Product

Individuals with pulmonary and /or respiratory disease, including, but not limited to, asthma and bronchitis, or subject to eye irritation, should be precluded from exposure to dust.

Sensitization to Product	N/A		
Carcinogenicity	NTP	IARC Monographs	OSHA Regulated
See "Chronic Exposure"	Yes	Level 1 Grouping	No
Teratogenicity	None	Reproductive Toxicity	None
Mutagenicity	None	Synergistic Products	None

SECTION 7 - PREVENTIVE MEASURES

Personal Protective Equipment

Use conventional NIOSH approved or equivalent respiratory protection equipment based on considerations of airborne concentration and duration of exposure.

For sandblasting use appropriate protective equipment and filtered air supply.

Gloves Abrasion resistant gloves are essential for sandblasting, and desirable for other industrial situations.

Eye Use appropriate eye protection to minimize contact with dust. Full protective hood is recommended for sandblasting.

Other Wear appropriate clothing and footwear for the specific application.

Engineering Controls

Use adequate ventilation and dust collection. Do not permit dust to accumulate in work area.

Leak and Spill Procedure

If uncontaminated, collect for reuse or disposal. Use dustless procedures. If contaminated, use appropriate method and container for contaminant.

Waste Disposal

In accordance with local regulations.

Handling Procedures and Equipment

Avoid creation of respirable dust if possible. Use adequate ventilation and dust collection.

Storage Requirements

Store in a dry place.

Special Shipping Information

Protect from moisture

SECTION 8 - FIRST AID MEASURES

Eyes Flush with running water. Obtain medical attention if irritation persists.

Gross inhalation of dust Remove to fresh air. Give oxygen with artificial respiration as needed. Obtain medical Inhalation attention for treatment, observation and support as needed.

SECTION 9 - PREPARATION DATE OF MSDS

Prepared By Gaia Green Products Ltd.

Phone Number 250-442-3745

Date November 15, 2012

The information in this Material Safety Data Sheet relates only to the specific material designated herein and does not relate to use in combination with any other material or in any process. The information given is based on technical data that we believe to be reliable at the time of issue of the MSDS. Because conditions of use are outside our control, it is the responsibility of the user to verify safety data for combinations with other materials, or for use in specific processes, and to verify waste disposal requirements.
